

ASTRA HATCHBACK & SPORTS TOURER

2015 Models Edition 3

Proud Sponsor of Home Nations Football

WELCOME TO A LIFETIME OF FORWARD THINKING

VX_BPS_18771

1903 – Forward thinking has been in our nature from the very start. The 6HP, our first ever car, had two forward gears. And no reverse.

VX_BPS_18772

1922 – The Silver Arrow OE 30-98 was capable of speeds of over 100mph, this model was built for shipping magnate Sir Leonard Ropner to race at Brooklands.

VX_BPS_18773

1937 – The Vauxhall '10' H-type, the first British car to have integral construction.

VX_BPS_18774

1957 – The PA Cresta introduced Americana styling to the UK.

VX_BPS_18775

1984 – The MkII Astra introduced class-leading aerodynamic styling that still looks good today. The Formula Vauxhall Lotus ran a modified version of the Astra GTE's 2.0i 16v engine.

VX_BPS_18776

1971 – The formation of Dealer Team Vauxhall (DTV). The track car was the precursor to our enormous success in touring car racing.

VX_BPS_18777

1999 – The Zafira introduced the revolutionary Flex7® seating system inventing the seven-seat compact MPV.

VX_BPS_18780

VX_BPS_18779

1990 – The Calibra was the world's most aerodynamic production car.

VX_BPS_18778

1989 – The Lotus Carlton was the world's fastest production four-door saloon.

2012 – The 'RAK e'. A radical looking electric concept car for the future. Our forward thinking continues.

VX_BPS_18782

2012 – Ampera. The first ever Extended-Range Electric Vehicle (E-REV) that redefined electric vehicle innovation leading to it being voted European Car Of The Year 2012.

Scan this QR code with your smartphone for more information on the last 110 years of Vauxhall innovation. Don't forget to download a QR reader from your app store first.

The world was a very different place in 1903 when Vauxhall made its first car. We steered with tillers, not wheels. Six horsepower was considered pretty nippy. And King Edward's face was still on the stamps. But for us, one important thing hasn't changed: we started out with a philosophy of Forward Thinking and, over 110 years later, it still motivates everything we do. Who knows what innovations the next 110 years will bring?

INNOVATION THAT MAKES YOU LOOK TWICE

Introducing the Astra line-up: quite simply, the best-looking Astra we've ever built. It's also the best equipped. Whether Hatchback or Sports Tourer, your Astra is simply full of innovations. Better still, it brings class-leading technology to the Astra driver, including two variants of the brand new, ultra-efficient 1.6CDTi Turbo diesel engine plus a sophisticated BiTurbo diesel engine that totally eliminates turbo lag. Its performance is as exciting as its looks. In short, today's Vauxhall Astra models have never turned more heads. Whichever way you look at them.

This brochure covers Astra Design, Excite, Limited Edition, Tech Line, Tech Line GT, SRi, BiTurbo and Elite models only. Some of the models shown include options and accessories available at extra cost. And not all of the features described are available on every model. We may also offer alternative Astra models such as Special Editions. So for all current model or equipment details visit the Vauxhall website: www.vauxhall.co.uk

DESIGNED TO MOVE YOU

The Astra Hatchback is one of the most striking models around, thanks to a dynamic design that makes a dramatic style statement. What's more, the Astra name stands for forward-thinking technology – with a long list of innovations to prove it. From advanced driver aids like the Adaptive Forward Lighting system to sophisticated safety features including Front Camera System and Advanced Park Assist, Astra showcases the kind of features that help the true market leaders stand out from the crowd.

Company car drivers can experience Astra for themselves via our free 3 Day Test Drive programme. Please see back cover for more details.

www.vauxhall3dtd.co.uk

VX_N_AST_19072

YOUR TURN TO TURN HEADS

From top to tailgate, the Astra Sports Tourer has the verve to go with its unbridled versatility. Its powerful body sculpting lays down a clear marker for the class, while ahead of that distinctively curved rear lies a hugely flexible loadspace with up to 1550 litres* available. Wherever you're headed, whatever you have planned, the Sports Tourer has it covered, with practical innovations from the electrically operated pushbutton Flex Fold rear-seat mechanism to FlexRide customisable chassis settings. The Elite model comes complete with electronic climate control and a leather trimmed interior. Capacious, capable and above all brilliant to drive, here's one model that really does put the Sports in Tourer.

*Rear seat down cushion removed (to roof).

PERFORMANCE TO THE POWER OF TWO

More than just a trim level, the brilliant, British-built, BiTurbo Hatchback and Sports Tourer models match a sensational 2.0 BiTurbo CDTi diesel engine with exclusive styling that comes straight from the pages of a wish fulfilment catalogue. First up there's the engine: generating 195PS and a hefty 400Nm of torque, it boasts fuel-saving Start/Stop technology and a fully sequential twin turbo system that delivers smooth, progressive acceleration at any speed, effectively eliminating turbo lag (the Sports Tourer variant is, indeed, the most powerful model in its class). Then there's the visual pay-off: a specially lowered sports chassis and awesome 18-inch alloys that leave the BiTurbo looking poised and ready for action. Unique front bumper with body-coloured upper grille bar and twin exhausts. And a race-inspired interior that boasts Jet Black 'Track' trim, combined with red sports seat bolsters and alloy-effect sports pedals among its sporty touches.

Astra BiTurbo

DRIVE YOUR EMOTIONS

Bold. Pure. Iconic. GTC puts passion high on the agenda. Its stunning, coupé-like profile and distinctive, blade-inspired lines speak volumes about Vauxhall's design philosophy. With dramatic styling cues. Striking 18-inch alloy wheels. And a poised, muscular stance. Set off by signature lighting. In short: a clear declaration of sporting intent. And presence to die for. We've only given you a mere taste of what to expect here. For more detailed information ask your retailer for a copy of the GTC brochure or log on to www.vauxhall.co.uk

QUALITY THAT SURROUNDS YOU

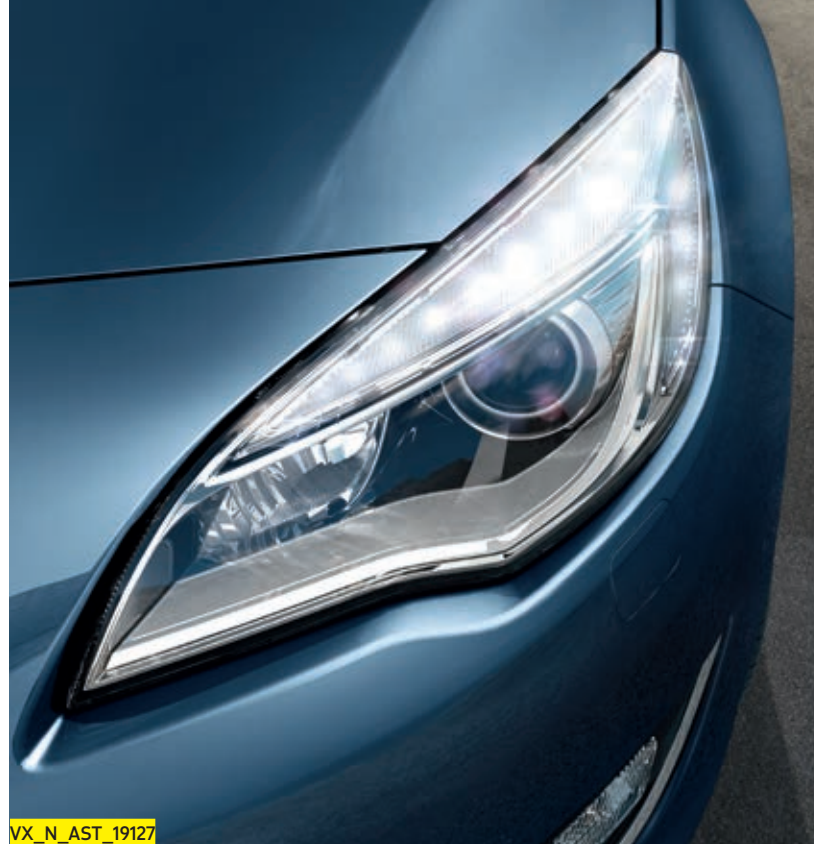

Whichever body style you select, Astra's generously proportioned interior sets the standard for its class. Driver and passengers are cosseted in a light, meticulously thought-out cabin that was conceived with just one priority in mind: journey-enhancing comfort. Premium materials combine with intelligent fascia design to maintain the air of quality.

Drivers who cover long distances will be especially pleased to note the availability of an ergonomically designed, AGR-accredited* sports seat – with adjustable front cushion for support where it matters and powered lumbar adjustment for individually tailored comfort. Optional Bluetooth® connectivity increases the feeling of being in control, adding to the overall sense of well-being. And there's a satellite navigation system with IntelliLink technology that lets you make calls and stream audio using Bluetooth® from portable devices via a big 7-inch colour screen.

*AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.

➤ HEADLIGHTS WITH FORESIGHT

Vauxhall's intelligent Adaptive Forward Lighting (AFL+) technology is an invaluable optional addition to your Astra, especially if you do a lot of driving at night. The headlights change their pattern to suit the location and the weather. Sensing where you need the light most, they help you see around corners and even dip automatically when something is coming the other way. You can also adjust the system for European driving.

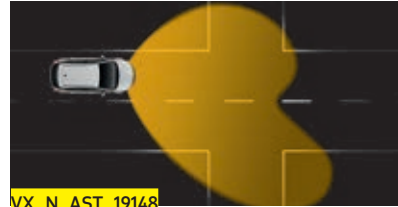

VX_N_AST_19127

LED Daytime Running Lights. Part of the optional Premium Forward Lighting Pack, the intelligent AFL+ headlight system comes with energy-efficient LEDs that make your car more visible to other road users. **High Beam with Assist (HBA).** HBA is also part of the Premium Forward Lighting Pack. It makes driving at night safer and easier by automatically dipping your headlights when it detects other vehicles ahead. It switches the lights back to high beam when the road is clear.

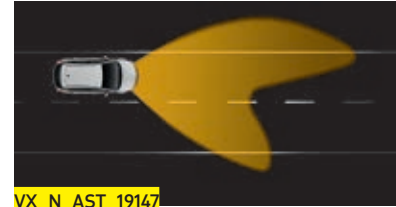

VX_N_AST_19149

Pedestrian area light. Wider spread of light (an extra eight degrees left and right) illuminates potential hazards (up to 20mph).

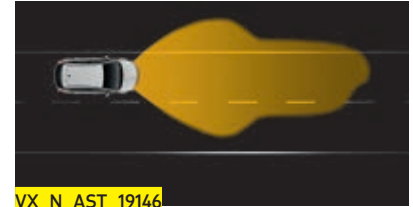

VX_N_AST_19148

Town light. Wider and lower spread of light. Activated by vehicle speed together with street lighting (20-35mph).

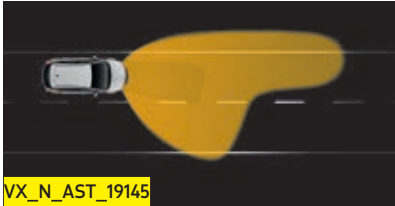

VX_N_AST_19147

Country road light. Wider spread and brighter light than normal low beam. 70 metre range without dazzle (35-70mph).

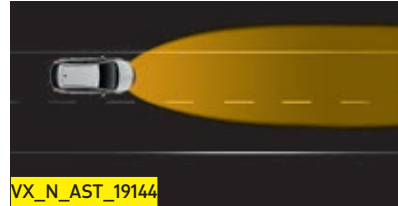

VX_N_AST_19146

Motorway light. 140 metre range, higher and brighter than normal low beam, without dazzle (over 60mph).

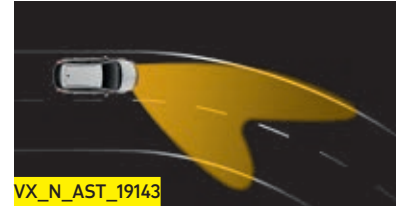

VX_N_AST_19145

Adverse weather light. Wiper or rain sensor activated for better vision in bad weather conditions (up to 45mph).

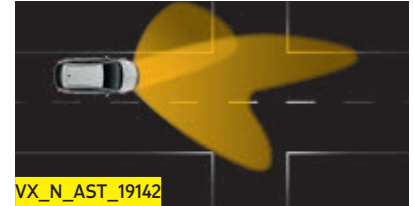

VX_N_AST_19144

High beam with assist. Automatically switches from high to low beam as it detects oncoming or proceeding vehicles (over 25mph).

VX_N_AST_19143

Dynamic curve light. Activated by steering angle and speed, the headlights swivel up to 15 degrees into the bend (any speed).

VX_N_AST_19142

Static cornering light. Throws light 90 degrees left or right for enhanced lateral vision (up to 25mph, also when reversing).

➤ SAFEGUARD YOUR INTERESTS

1. Systematic safety. Astra combines advanced electronic options with proven safety features like front, side and curtain airbags and reinforced passenger safety cell with pre-defined deformation zones. ISOFIX child seat restraint fittings are standard on the outer rear seats of all models.

2. Rear View Camera Pack. The pack includes the Navi 650 or Navi 950 satellite navigation system. Utilising the satellite navigation screen the rear view camera, mounted in the tailgate handle, gives you a clear view of the area behind your car whilst also displaying your rear bumper as a point of reference. Only available when fitted in conjunction with the Perimeter Protection Pack or front and rear parking distance sensors. The Navi 650 system is optional at extra cost on Design, SRi and Elite models. The Navi 950 version is optional at extra cost on SRi and Elite models.

3. Hill start assist. Standard on SRi, BiTurbo, Tech Line GT, Elite, and all automatic models – hill start assist stops you rolling back unintentionally on steep hills, by automatically releasing the brake at just the right moment when pulling away on a gradient.

The Astra line-up offers a host of class-leading, state-of-the-art electronic driver aids to make driving a whole lot easier – and safer too. Some of these options utilise the cutting-edge front camera system that employs advanced technology to scan the road ahead.

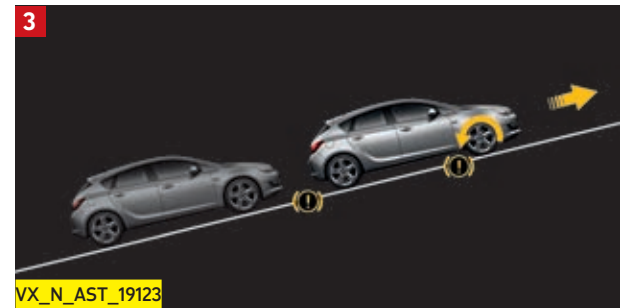

VX_N_AST_19122

1

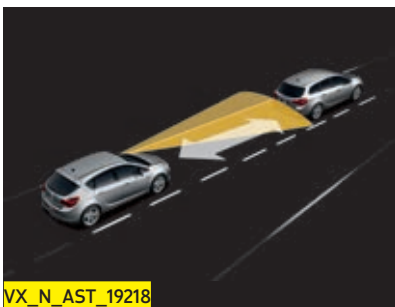

VX_AST_21821

2

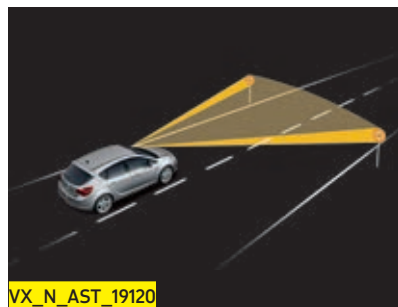

VX_N_AST_19123

3

Forward Collision Alert (FCA).

Available as part of the optional Driving Assistance Pack One (SRi, BiTurbo, Tech Line GT and Elite models), FCA constantly shows the distance to the leading vehicle in the instrument panel, helping you to maintain a safe distance. In addition, FCA – active when the car is moving faster than 20mph – gives visual and audible warnings if you approach a slower-moving vehicle too fast.

Traffic Sign Recognition (TSR).

Utilising the front camera function, this clever system makes sure you're constantly made aware of speed limits, even when temporary signs are put up. TSR continually monitors road signs, and gives you a warning if you unintentionally stray over the limit. It can even read and display motorway electronic signs related to speed limits like rain or snow warnings. Available as part of the optional Driving Assistance Pack One (SRi, BiTurbo, Tech Line GT and Elite models).

Lane Departure Warning (LDW).

LDW uses the front camera system to recognise lane marking lines, and emits an audible warning if your vehicle leaves its lane unintentionally (i.e. without you signalling), preventing potential accidents and reminding you of inattention or tiredness. The LDW system can be deactivated via a facia switch. Available as part of the optional Driving Assistance Pack One (SRi, BiTurbo, Tech Line GT and Elite models).

Tyre Pressure Monitoring System

(TPMS). The standard TPMS is a convenient way of checking your tyre pressures. If any of them start to deflate, a visual indication displays within the instrument panel and, depending on the model, the precise pressure of each individual tyre is shown.

➤ A MODE FOR EVERY MOOD

Optional FlexRide chassis settings. With a mere touch of a button, this optional feature allows you to change the car's whole driving dynamics – from 'Sport' to 'Tour' and back again. Using continuous damping control technology, FlexRide automatically adjusts the dampers for excellent grip. In 'Tour' mode, it chooses the best settings for gentler straight-line driving. Switch to 'Sport' mode and it instantly sharpens the response of the speed-sensitive steering, accelerator and automatic transmission (if fitted). It also changes the colour of the ambient instrument lighting – from a cool white to a more dynamic red effect.

Smooth, precise and above all responsive, the chassis epitomises the stable and spirited feel that characterises the car as a whole. The optional FlexRide adaptive stability technology lets you adjust ride settings from one journey to the next to suit your individual driving style.

VX_N_AST_19106

Astra SRi

➤ MAXIMISE YOUR RESOURCES

The Astra ecoFLEX models provide conclusive proof that you can save money on your motoring without the need to compromise on outright performance and driveability.

The ecoFLEX range is terrific to drive and offers superb fuel economy and performance without the need to make concessions on driving dynamics. The Astra Tech Line 1.6CDTi 110PS Start/Stop ecoFLEX, for example, delivers up to 78.5mpg (combined) and CO₂ emissions of just 94g/km, which, considering its power and performance, means it ranks amongst the lowest in its class. So not only do you save money on Vehicle Excise Duty (VED) and lower company car taxation but the improved fuel economy means you'll save on your fuel bills too.

And we haven't stopped there. We have been researching ways of developing new cars that are more efficient than ever before. The innovative Vauxhall Ampera*, Car of the Year 2012, is an Extended-Range Electric Vehicle (E-REV) that can drive up to 50 miles on battery power alone and over 300 miles utilising an on-board electric generator system.

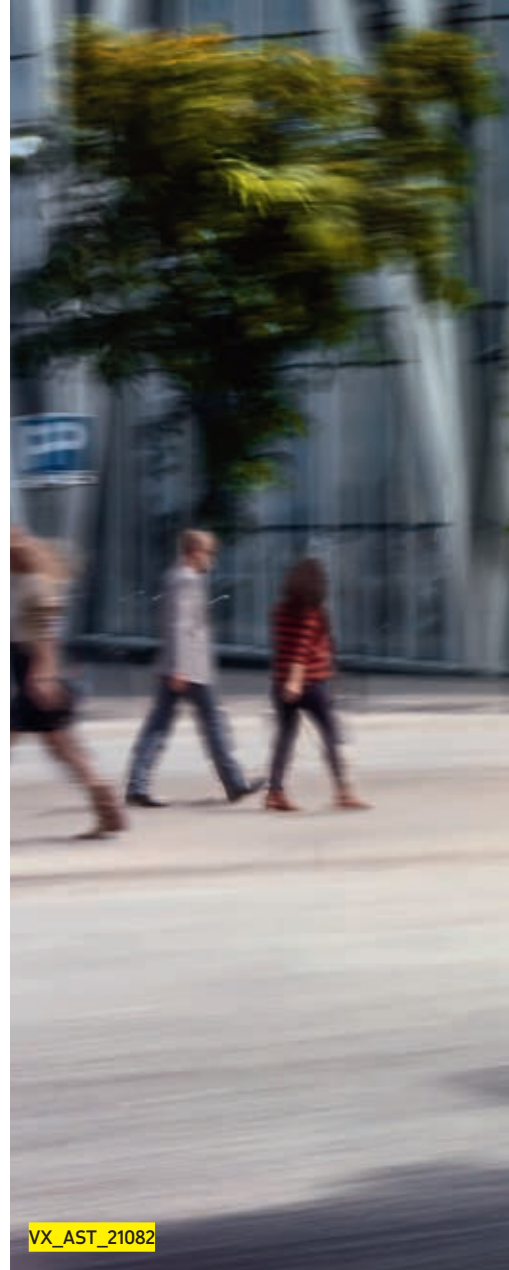

But then it's not just our cars that can help you save money. You can help yourself by simply adopting smarter driving techniques. Smooth throttle control, changing gear at around 2000rpm when accelerating and lifting off the accelerator earlier in order to slow your vehicle down, all contribute to efficient motoring.

Astra Hatchback and Sports Tourer. Not only are they perfect for your lifestyle – they suit your financial plans too.

*For more information on Vauxhall Ampera please visit www.vauxhall.co.uk/ampera.

Scan this QR code with your smartphone, watch our Eco Driving tips video and start saving.

➤ POWER WITH A SENSE OF RESPONSIBILITY

The choice is yours. Drivers can select from three powerful yet highly efficient petrol engines and five hugely responsive turbo diesels, many matched with slick six-speed gearboxes or – on selected units – an optional six-speed automatic transmission.

Petrol choice includes a 100PS 1.4i unit, a free-revving 115PS 1.6i engine and a powerful 1.4i Turbo unit producing 140PS.

The extensive diesel range includes the new 1.6CDTi Whisper Diesel unit available in a choice of power outputs – 110PS or 136PS – with excellent fuel economy and outstanding CO₂ emissions as low as 94g/km. Then there's a versatile 1.3CDTi common rail diesel producing 95PS, a highly flexible 2.0CDTi common rail unit that's good for an impressive 165PS plus the top-of-the-range high performance BiTurbo diesel engine; developing a sensational 195PS with 400Nm of torque.

The concept of choice is central to Astra and the wide range of engines available fully supports this principle. Options extend from the lively yet frugal 1.4i 16v petrol unit to the remarkable 195PS BiTurbo Start/Stop engine – Vauxhall's most potent diesel unit ever. And there's a choice of ecoFLEX models available – including a brand new 1.6CDTi Whisper Diesel that is designed to be both fuel efficient with low CO₂ emissions and impressively quiet out on the road too.

VX_N_AST_19124

Start/Stop. In many cases, the units can be specified with Vauxhall's proven fuel saving and emissions reducing Start/Stop technology. This innovative system switches the engine off when you stop at the lights or in traffic, then restarts it automatically once the clutch is depressed. A wide range of in-built safety checks ensures total peace-of-mind in all circumstances.

Start/Stop is also an essential feature of our market-leading ecoFLEX models. Our 1.6CDTi 110PS model for instance, features emissions as low as 94g/km. Exact availability is identified on the individual model pages.

➤ SUPPORT YOU CAN RELY ON

The designers and engineers behind the Astra line-up put serious thought into even the smallest details. It's these details that make all the difference to the travelling environment – and your overall sense of well-being. Adding to the whole experience, drivers can select from a host of comfort options including sophisticated dual-zone electronic climate control, a heated steering wheel and ergonomically designed, heated seats.

Ergonomic sports driver's seat. The perfect choice for long-distance drivers. Standard on Elite and optional on selected models, the seat adjusts to suit the driver's posture by letting you fine tune the lumbar adjustment and extend the seat cushion, giving your upper body and legs greater support where it's needed most. The seat has won the coveted AGR* seal of approval for helping to prevent the back pain and tension suffered by some car occupants.

*AGR (The Campaign for Healthier Backs) is an independent centre of excellence for ergonomics, based in Germany.

VX_AST_21996

Driver's seat power lumbar

adjustment. Upgrade your car's seating with Seat Comfort Pack One and your Astra comes with power lumbar adjustment for the driver's seat (standard on Elite models). Drivers specifying Seat Comfort Pack Two get power lumbar adjustment for the front passenger's seat, too.

Electronic Climate Control.

Providing constant control of the interior atmosphere via an on-screen display, this fully automatic system features Dual Zone settings so you can set the ideal temperature for either side of the car. A filter system traps pollen, dust and unpleasant odours. Standard on Elite and optional at extra cost on most other models.

Winter Pack.

Keep your hands warm in a cold snap and enhance your grip with a leather-covered heated steering wheel. In addition the electrically heated front seats prove a welcoming comfort feature on cold mornings. Optional at extra cost.

Side Blind Spot Alert.

Available as part of the optional Perimeter Protection Pack on selected models, this ultrasonic-based system helps prevent a potential collision with a vehicle in the neighbouring lane by continuously screening the blind spots on both sides of the car and providing a visual warning if the indicator is set to change to a lane where another car is detected.

▶ LET'S STAY CONNECTED

Keep in touch, entertained and ahead of the queues with Astra's premium in-car communication systems, complete with aux-in socket, optional digital radio on most models and USB connection and Bluetooth® mobile phone system both available.

1. CD 400 stereo CD/radio. Standard on most models, the CD 400 raises the bar for in-car entertainment units in this class. Highlights include AM/FM stereo radio, 20 watts per channel output via six speakers and Graphic Information Display. The unit plays CDs and MP3/WMA files and comes with an aux-in socket for portable music players. Bluetooth® mobile phone system and USB connectivity can be specified as options, while a digital radio option is also available on most models (and is standard on Tech Line and Tech Line GT). Digital radio means digital quality sound, a broader range of stations, easier to find by name and improved track display info on some stations.

2. Infinity® Premium Sound System. The ultimate in audio performance, with 7x45 watts (315 watts total), seven premium speakers and an eight-inch subwoofer. The optional Infinity system digitises the audio signal so it can be fine tuned with Digital Sound Processing for accurate sound response. The difference is better all-round sound production under all driving conditions.

3. Plug-and-play USB and Bluetooth® wireless technology. A USB interface lets you hook up most MP3 players, smartphones or USB sticks to your Astra's infotainment system and access music, podcasts and other files via the steering wheel remote controls. With optional Bluetooth® technology you get hands-free operation of most mobile phones. Standard on Tech Line, Tech Line GT, Excite and Limited Edition, the system is optional on most other models.

Navi 650 satellite navigation system. Featuring the very latest in satellite navigation with 7-inch colour screen. It gives you fast access to map data and points of interest to keep you informed and on the move. Covering all major link roads and streets in towns and cities across mainland Britain and Ireland. Standard on Tech Line and Tech Line GT models, optional at extra cost on all other models.

4. Navi 950 IntelliLink. Upgrade to this optional system and you'll not only get street level mapping across Europe, you'll be able to make calls and stream audio from your smartphone, tablet or other portable device using Bluetooth®. It features voice commands for navigation, phone calls and music track choice. So you stay connected every minute of your journey. Optional at extra cost on SRi, BiTurbo and Elite models.

Other highlights include:

- CD player with MP3 format
- AM/FM stereo radio with 36 station presets
- 20 watts per channel output and six speakers
- Steering wheel mounted audio controls

VX_AST_21995

➤ SPACE-MAKING MADE EASY

Flexible, versatile and packed with clever storage ideas – Vauxhall models are famous for combining easy access with user-friendly features, and Astra more than lives up to the billing. Vauxhall innovations like the optional Flex Floor* or Flex Fold** systems help keep your Astra neat, tidy and adaptable to whatever you want to do.

Flex Fold automatic seat folding system.

Optional at extra cost on Sports Tourer models, this ingenious feature makes folding the rear seats so simple. Seat back release buttons are located in the rear side walls on each side of the load space. Just one touch of the button and the rear seat backs automatically fold forward.

1. Flex Floor luggage compartment.* The 5-door Hatchback model has space for 351 litres of luggage – extendable to 1216 litres with the 60/40 split-folding rear seat – Astra Hatchback also ranks among the roomiest vehicles in its class. And with our Flex Floor system, optional at extra cost – allowing the load floor to be mounted level with the rear sill or to the folded rear seats – it's easy to load and unload too.

2. Front passenger's underseat storage facility. In addition to a generously sized moulding for a 1.5-litre bottle on the inside of the door, you can store items you don't need quite so often in this practical drawer that slides out from under the front passenger seat. Optional as part of Interior Versatility Pack.

*Available for Hatchback models only. **Available for Sports Tourer models only.

CHOICES TO INSPIRE YOU

Astra is available in both Hatchback and Sports Tourer variants. Depending on your choice of body style, you can select from eight different trim levels – SRi, BiTurbo and Elite models as well as our fleet-focused Design, Tech Line and Tech Line GT models. Then there's our two special edition models. The Excite looks the part with stylish alloy wheels and LED running lights and features an audio system complete with USB capability and Bluetooth® connectivity. Limited Edition ups the ante with stunning 19-inch alloy wheels, a sports-style body kit and a leather interior.

DESIGN

Hatchback | Sports Tourer

A well equipped, cost effective solution for the company car driver with excellent tax-efficient credentials.

Standard features include:

- Electronic Stability Programme (ESP)
- Six airbags

> VXR STYLING PACK

By definition, Astra owners are looking for something special. Our VXR Styling Pack lets you create something very special indeed.

Astra Elite model illustrated features VXR Styling Pack, Premium Forward Lighting Pack, 18-inch twin-spoke alloy wheels and Summit White brilliant paint, optional at extra cost.

1. VXR Exterior Styling Pack. VXR styling products allow you to connect with the performance and excitement at the heart of the VXR brand. Taking that same ethos as our brief we have created a definitive line-up of VXR styling products that will add a degree of individuality to selected Astra models. The pack is available as a factory-fit option or as a separate accessory pack fitted by your Vauxhall retailer.

2. Front lower spoiler. The classic choice for the sports enthusiast, the spoiler helps emphasise Astra's distinctive ground-hugging front aspect.

3. Roof spoiler. This adds an extra sporty accent to the roof line. Also available as a separate accessory for selected models.

4. Side sills. With its broad wheelbase and low-slung chassis, Astra provides the ideal platform for dedicated VXR styling products.

WHEELS AND TYRES

The perfect finishing touch to Astra's distinctive lines. Choose from wheel covers, structure or alloy wheels. And sizes up to 19-inch. In short, there's an impressive selection of designs on offer so you can personalise your car to achieve the effect you're looking for.

*Optional at extra cost.

**Not available on 1.4i 100PS models.

†Optional on 1.4i 140PS Turbo models only.

‡Not available on 1.6i 115PS models.

All Astra models come with emergency tyre inflation kits as standard. Space-saver and full-size spare wheels are optional at extra cost, depending on model. Please refer to the Astra Price and Specification Guide for details of the specific tyre size for each specific alloy wheel design.

Please note: Optional wheels can result in higher fuel consumption and CO₂ emissions. Please refer to the Astra Price and Specification Guide for more information.

➤ ACCESSORIES

Your Astra is engineered to handle just about anything you throw at it. But when your routine changes and there's something specific you need to meet the new challenge, the wide range of Genuine Vauxhall Accessories is guaranteed to deliver a solution. Please check with your retailer for more information, or visit www.vauxhall.co.uk/accessories

1. Roof base carrier with Thule roof box. Whether you're playing sport, embarking on a family holiday or simply making the most of your precious leisure time outdoors, even your Astra's vast load area might not be enough to accommodate all your gear. The Thule roof box should take care of larger items that don't fit inside the car.

2. Hard cargo tray. When you have lots of little items to load, this made-to-measure liner is a must – it lets you lift everything in and out of your boot in one go. High-edged, flexible and washable, the cargo tray also has a non-skid surface to prevent loads from slipping – and help you keep the boot area clean and tidy.

Now you are able to browse all of the Genuine Vauxhall Accessories range with just the click of a button. Scan this QR code with

your smartphone for more information. Don't forget to download a QR reader from your app store first.

3. Floor mats. Hard-wearing floor mats provide extra protection to keep your fitted carpets as clean as the day you brought your car home.

4. iPad cradle. This purpose-designed cradle provides secure and convenient in-vehicle location of an iPad 2 or 3. You can also revolve it 360° and tilt it by 15° for perfect on-the-move viewing.

5. Boot lip protection foil. There to protect the paintwork of the upper bumper on your Astra from accidental scuffs and scratches when you load and unload the boot. Additional kits are available to protect other potentially vulnerable areas of the car.

➤ EXTERIOR COLOURS

With its sculpted shape and athletic lines, Astra is the perfect blank canvas for our carefully selected range of contemporary exterior colours – each one reflecting the car's unique sense of style. So you're sure to find one that perfectly complements your own taste, lifestyle and personality.

= Official Government Test Environmental Data. Official EU-regulated test data is provided for comparison purposes and actual performance will depend on driving style, road conditions and other non-technical factors.

* = Correct at time of publication.

The **maximum towing weights** are based on the ability of the car, with two occupants of 75kg each, to restart on a 12% gradient, which is approximately 1 in 8.3, at sea level. At altitudes above 1500 metres, the engine output may drop with a corresponding reduction in towing capability. Any extra weight, such as luggage or additional passengers, should be deducted from the maximum towing weight. With a trailer fully loaded, **maximum noseweight** should not exceed 75kg. Always fit Vauxhall towing attachments and accessories available from your Vauxhall retailer. They are designed specifically for Vauxhall models and carry a 12-month guarantee.

Comprehensive specifications and technical data is available in the PDF price/specification guide available at www.vauxhall.co.uk under 'Request a brochure'

Trust Vauxhall

Company Car Driver 3 Day Test Drive

Our free* 3 Day Test Drive programme is open to all Company Car Drivers which allows you to choose any model in the current Vauxhall line-up (excluding Ampera, all VXR models and Commercial Vehicles), with full insurance cover provided, to give you a meaningful length of time to make an informed decision about your next company car. Our tax efficient Tech Line models have been specifically developed for Company Car Drivers, see pages 40-41 for more details.

To book your free* test drive just log on to www.vauxhall3dtd.co.uk or call **0870 240 4848****

Fleet Customer Services

Our dedicated support services for fleet decision makers include factory demonstrators and information on whole life costs, company car taxation and finance.

For further information please call **0870 010 0651**.

E10 Fuel

E10 fuel is cleared for use in all petrol-engined Vauxhall vehicles excluding models with the 2.2 litre direct injection petrol engine (code Z22YH) used in Vectra, Signum and Zafira models. Owners of these vehicles should continue to use regular unleaded or premium unleaded petrol.

Proud Sponsor of Home Nations Football

*The free 3 Day Test Drive programme is open to Company Car Drivers and excludes fuel and lubricants, congestion charges, parking and speeding fines and the £250 insurance excess (if applicable). It features a wide selection of models from the Vauxhall range (excluding Ampera, all VXR models and Commercial Vehicles and subject to availability). Drivers must be aged 25 years or over, have held a full driving licence for at least a year and hold a major credit card. You will need to have your driving licence (and proof of identity (i.e. passport) where the driving licence is not a photocard licence) when your car is delivered. While every effort will be made to ensure that at least 3 days are provided for the test drive, this cannot always be guaranteed due to delivery and collection dates and timings. Available for UK Mainland only. Terms and conditions apply. **Telephone lines open Monday-Friday 9.00am to 5.00pm excluding Bank Holidays. Calls may be recorded or monitored for quality and/or training purposes.

Every effort has been made to ensure that the contents of this publication were accurate and up-to-date at the time of publication (April 2015). Vauxhall vehicles are equipped with components manufactured by various General Motors operating units and outside suppliers. The Company reserves the right to alter specifications and withdraw products from sale without notice. Any such alterations will be notified to Vauxhall retailers at the earliest opportunity, please consult your local retailer for the latest information. The specifications detailed within this brochure are not necessarily applicable to alternative models such as Special Editions. Details of any such models will be contained in specific literature or found on the Vauxhall website. Please note that Vauxhall retailers are not the agents of General Motors UK Limited and are not authorised to bind the Company by any specific or implied undertaking or representation. It is advisable to ensure that your motor insurance policy provides adequate cover for additional fitted options and accessories. Please note accessories shown are for illustrative purposes only. As part of Vauxhall's policy of environmental care, this brochure is printed on paper manufactured using Elemental Chlorine Free pulps from specially farmed, sustainable timber resources.
